Dear Mr. Keppler:

This is to confirm my verbal report to your Mr. N.E. DuBry, NRC Resident Inspector, on July 4, 1983, at 1049 hours, at which time I informed him that during a routine tour of the Unit 2 Containment a leak was discovered in the Nonessential Service Water System. As required by the criteria established in IE Bulletin 80-24, prompt notification was made to the NRC which entailed notifying the Resident Inspector and making a red phone call (1052).

As required by IE Bulletin 80-24, a written report will be forwarded to you within 14 days.

Sincerely,

W.G. Smith, Jr.
Plant Manager
