(Beaver Valley Power Station, ) (Operating License)  
Unit 2) )

APPLICANTS' ANSWER TO GEORGE S. WHITE  
PETITION FOR INTERVENTION ON LICENSING  
OF BEAVER VALLEY NO. 2

In a filing dated June 27, 1983, George S. White "petition[ed] to become an intervener [sic] in the proceedings advertised by your Commission to issue a preliminary license to CAPCO and/or DUQUESNE LIGHT for operation of a 900 kilowatt [sic] nuclear plant known as Beaver Valley No. 2. . ." Mr. White states that his residences are less than 900 feet from the cooling tower for Beaver Valley Power Station, Unit 2, and that the Unit 2 reactor is less than 1500 feet from his property.

Applicants believe that Mr. White has adequately set forth his interest in the proceeding <sup>1/</sup> and the aspects of the subject matter

---

<sup>1/</sup> Mr. White's transmittal letter states that his petition "is being filed in behalf of myself and other residents of Shippingport." (emphasis add d) Mr. White does not have authority to represent "other residents in Shippingport." Individual parties cannot act as private attorneys general. Long Island Lighting Co. (Shoreham Nuclear Power Station, Unit 1), LBP-77-11, 5 N.R.C. 481, 484 (1977).

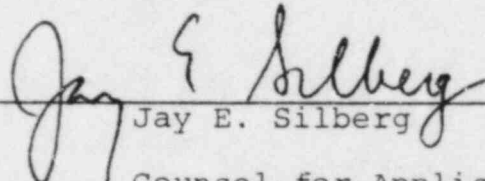

as to which he wishes to intervene. Applicants reserve their judgment on whether Mr. White should be entitled to intervene pending the required filing of a supplement to his petition pursuant to 10 C.F.R. §2.714(b).

Applicants request that any further filings by Mr. White be properly served by him on Applicants' counsel. <sup>2/</sup>

Respectfully submitted,

SHAW, PITTMAN, POTTS & TROWBRIDGE

<sup>2/</sup> Mr. White did not serve his petition on Applicants' counsel, as he was required to do by the Notice of Opportunity for Hearing, 48 Fed. Reg. 24488, 24489 (June 1, 1983). Had the petition been properly served, Applicants' answer would have been due on July 12, 1983 in accordance with 10 C.F.R. §§2.710, 2.712(d) and 2.714(c). Since Applicants were served Mr. White's petition by the NRC at some later time (it was received on July 11, 1983), Applicants' response should be considered timely.
