Docket Nos. 50-352 and 50-353

Dear Mr. Anthony:

"FOE and R. L. Anthony's Answer to Applicant's First Set of Interrogatories," dated June 20, 1983, indicates that your "research is still in progress" and that certain additional information and material will be provided to Applicant. Your June 24, 1983 telephone call to my office indicated that the names of possible expert witnesses would be provided as soon as they were identified.

Inasmuch as almost a month has passed, no further communication has been forthcoming and the end of discovery on your two contentions is nearing, I am requesting that you provide me with all information that you presently have responsive to "Applicant's First Set of Interrogatories and Request for Production of Documents to Friends of the Earth" dated June 3, 1983. In particular, please provide the names, addresses and qualifications of all expert consultants, designated and potential expert and factual
