John L. Skolds
Vice President
Nuclear Operations

MAY 06 1991

U. S. Nuclear Regulatory Commission
Document Control Desk
Washington, DC 20555

Gentlemen:

Subject: VIRGIL C. SUMMER NUCLEAR STATION
DOCKET NO. 50/395
OPERATING LICENSE NO. NPF-12
CORRECTED PAGE - REVISION 29 (EMP 910003-1)
RADIATION EMERGENCY PLAN SUBMITTAL

In compliance with 10CFR50.54(q), South Carolina Electric & Gas Company (SCE&G), acting for itself and as agent for South Carolina Public Service Authority, submits one copy of corrected page 62 to Revision 29 to the Radiation Emergency Plan. The date and revision number in the heading were incorrect in the original submittal dated January 28, 1991.

The corrected page was reviewed in accordance with 10CFR50.54(q) and was found not to decrease the effectiveness of the Radiation Emergency Plan.

If you have any questions, please contact us at your convenience.

Very truly yours,

John L. Skolds

- f. Greenbriar-Bethel Volunteer Fire Department
- g. Jenkinsville - Monticello-Herob Volunteer Fire Department

Fire-fighting support can be requested through the dispatcher in Winnsboro who will dispatch the fire fighting unit to the scene. If the fire brigade leader decides that outside assistance is necessary, relative to capability for the fire brigade to contain a fire, the fire brigade leader and shift supervisor will generate contact with outside support units in agreement with the Summer Station to provide volunteer (trained) personnel, and fire fighting equipment such as pumpers, tankers, and miscellaneous fire fighting equipment.

5.4.4 Local Law Enforcement

In the event that local law enforcement assistance is necessary at the Virgil C. Summer Nuclear Station several agencies will be available. These agencies include the Fairfield County Sheriffs Department and the South Carolina Highway Patrol. If the nature of the emergency requires outside assistance in maintaining the security of the station, these agencies would be notified. The interrelationship of Local Law Enforcement with the station security group during an emergency is outlined in the station security plan.

5.5 Coordination With Government Agencies

The close coordination between the state, county and federal emergency plans and the V. C. Summer Emergency Plan are required to ensure the health and safety of the public. Discussed below are the agencies which have the responsibility for identifying protective actions for the general public and the authority to implement these actions. Section 5.6 discusses other Federal agencies which may be involved with an emergency situation. These agencies and their roles are discussed below. The locations of the emergency operations centers for these agencies are given in Section 7.3

5.5.1 South Carolina Bureau of Radiological Health

The Bureau of Radiological Health of S. C. Department of Health Environmental Control is responsible for initiating the State of South Carolina emergency plan in support of V. C. Summer Nuclear Station.
