

SOUTH CAROLINA ELECTRIC & GAS COMPANY

POST OFFICE 764

COLUMBIA, SOUTH CAROLINA 29218

O. W. DIXON, JR.  
VICE PRESIDENT  
NUCLEAR OPERATIONS

July 15, 1983

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Subject: Virgil C. Summer Nuclear Station  
Docket No. 50/395  
Operating License No. NPF-12  
Procedures for Post Reactor  
Trip Reviews

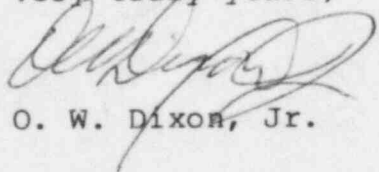

Dear Mr. Denton:

In a letter dated June 8, 1983, South Carolina Electric and Gas Company (SCE&G) committed to provide the Nuclear Regulatory Commission a copy of the station procedures utilized for responding to Reactor Trips and for performing Post Reactor Trip Reviews. Attached are ten (10) copies of Station Emergency Operation Procedures EOP-5, "Recovery from Reactor Trip," and EOP-10, "Malfunction of Control Rod System"; Station Administrative Procedure SAP-132, "Off-Normal Occurrence Evaluation, Reporting and Resolution," which contain these required instructions.

On July 13, 1983, SCE&G received Generic Letter 83-28, Required Action Based on Generic Implications of Salem ATWS Events. Because Generic Letter 83-28 contains requirements impacting the attached procedures, additional revisions may be necessary. The review of the Generic Letter will be conducted within the NRC's schedule for response, and further changes to these procedures will be addressed accordingly.

If you have any questions, please contact this office at your convenience.

Very truly yours,

  
O. W. Dixon, Jr.
