Subject: Virgil C. Summer Nuclear Station
Docket No. 50/395 /K
Operating License No. NPF-12
Notice of Violation
NRC Report 83-08, "Examination
of Management and Quality
Assurance Controls"

Dear Mr. O'Reilly:

South Carolina Electric and Gas Company (SCE&G) responded to the subject audit report on May 11, 1983 indicating that SCE&G anticipated completing the corrective action, issuance of Training Procedure III. A.4 - "Regualification Program for USNRC Licensed Operators and Senior Operators," by June 30, 1983. This procedure is part of the newly developed Nuclear Education and Training Group Manual which addresses the administrative controls and the implementation requirements of the overall Training Program. In an effort to ensure consistency in this Manual, and to provide for a more effective review, the entire manual has been issued for review and approval.

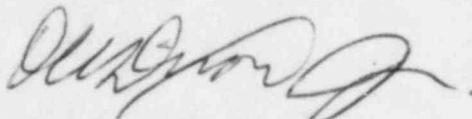

In the interim, SCE&G has required all licensed personnel to read and sign the Operations Required Reading Book as being defined in III.A.4. This ensures all licensed personnel are being made aware of significant changes to facility design, procedures, Technical Specifications and the Facility Operating License. They are also being made aware of significant operating experiences.

For the above reasons, SCE&G requests an extension of the completion date to August 15, 1983 in order to achieve full compliance with the commitment.

Mr. J. P. O'Reilly
