File Nos. G9.5, G9.1.2

Mr. John T. Collins, Regional Administrator  
U. S. Nuclear Regulatory Commission  
Region IV, Office of Inspection and Enforcement  
611 Ryan Plaza Drive, Suite 1000  
Arlington, Texas 76011

Dear Mr. Collins:

River Bend Station Unit 1  
Docket No. 50-458

In accordance with the provisions of 10CFR50.55(f) as amended by the Nuclear Regulatory Commission's final ruling published in the Federal Register on January 10, 1983 (48 FR 1026) concerning the reporting of changes to licensees quality assurance program, Gulf States Utilities submits the enclosed copy of the River Bend Station Construction Quality Assurance Program. The River Bend Station Construction QA Program describes the quality assurance program in effect on March 11, 1983 and identifies changes to the quality assurance program since the issuance of the Construction Permit. Gulf States Utilities believes these changes to be consistent with good QA practices.

Sincerely,

*J E Booker*
