TVA BFNP TS 176 SUPPLEMENT C

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Denton:

In the Matter of the)	Docket Nos.	50-259
Tennessee Valley Authority)		50-260
			50-296

In accordance with the provisions of 10 CFR Parts 50.59 and 50.90, we are enclosing 40 copies of a requested amendment to licenses DPR-33, DPR-52, and DPR-68 to change the technical specifications of Browns Ferry Nuclear Plant units 1, 2, and 3 (enclosure 1). The enclosed specifications clarify plant staffing and propose use of a senior reactor operator trained in fuel handling for refueling, consistent with BWR Standard Technical Specifications. Description and justification of the proposed changes is enclosed (enclosure 2).

The enclosed specifications are administrative in nature and accordingly they are being submitted as a supplement to a pending request for technical specification change also administrative. TVA BFNP TS 176 was submitted September 14, 1982 with Supplements 1, 2, 3, 4, 5, 6, 7, and 8 submitted November 5, 1982, December 17, 1982, February 1, April 7, April 28, June 3, June 20, and June 24, 1983, respectively. Inclusion of this additional change with an existing request avoids TVA having another request pending on the Browns Ferry docket and we believe is the best method for submittal.

This requested amendment has been evaluated pursuant to 10 CFR Part 50.92 and no significant hazards considerations are involved (enclosure 3).

A001
1/40

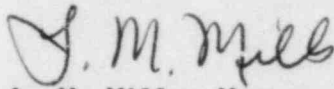

Mr. Harold R. Denton

July 18, 1983

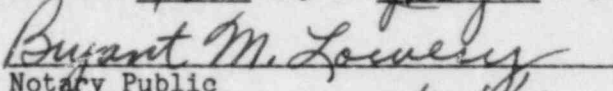

In accordance with the requirements of 10 CFR 170.22, Class II and Class I fees totaling \$2,000 were forwarded with license amendment request TVA BFNP TS 176. Because the proposed specification revisions are only a minor addition to TS 176, we do not believe additional review fees are appropriate. Therefore, no fees will be forwarded.

Very truly yours,

TENNESSEE VALLEY AUTHORITY

L. M. Mills, Manager
Nuclear Licensing

Subscribed and sworn to before
me this 18th day of July 1983.
