U. S. Nuclear Regulatory Commission
Washington, DC 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES) - UNIT 1
DOCKET NO. 50-445
MONTHLY OPERATING REPORT FOR APRIL 1991

Gentlemen:

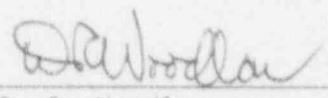

Attached is the Monthly Operating Report for April 1991 prepared and submitted pursuant to Specification 6.9.1.5 of Appendix A (Technical Specifications) to the Comanche Peak Unit 1 Steam Electric Station Operating License, NPF-87.

In addition, the revised page 1 of the monthly operating reports for February and March 1991 are attached. The net electrical energy generated (Item 11) for the February 1991 report contained a typographical error. As a result the year to date and cumulative figures for February and March were calculated using this incorrect number. In addition Items 16 & 17, unit capacity factors were also affected.

If you have any questions, please contact Mr. Jorge L. Rodriguez at (214) 812-8323.

Sincerely,

William J. Cahill, Jr.
