Reference: Docket No. 50-285

Dear Mr. Collins:

Yearly Quality Assurance
Program Change Update

Pursuant to 10 CFR 50.54(a)(2), please find attached the current description of Omaha Public Power District's Quality Assurance Program. Changes from the description presently in the Fort Calhoun Station's Updated Safety Analysis Report are indicated by a vertical line in the right-hand margin. Please note that while revisions are extensive, no reductions in commitments to the Commission were made after March 11, 1983. All revisions to the Quality Assurance description since that time reflect a conversion of the program description to generic commitments or requirements, such as the removal of specific procedure numbers.

Sincerely,

A handwritten signature in cursive script, appearing to read "W. C. Jones".
