Dear Dr. Terrell:

The staff has reviewed the revised Operator Requalification Program you submitted by letter dated January 4, 1983. The staff has concluded that the University of Oklahoma revised program satisfies the requirements of 10 CFR 55, Appendix A and is, therefore, acceptable.

This finding will also be reflected in the staff's Safety Evaluation Report prepared in conjunction with its review of your operating license renewal application. If you have any questions, please contact the Project Manager, Harold Bernard at (301) 492-9799.

Sincerely,

for Darrell G. Eisenhut, Director
Division of Licensing
