SUBJECT: Concrete Placement in Wall Modules

Dear Mr. Hurt:

Enclosed is the West Valley Nuclear Services Company, Inc. (WVNS) response to comments from the January 22, 1991, NRC visit. We appreciated the visit of Jerry Roth and S. K. Chandary to observe the placement of concrete in the wall modules. The lessons learned from that visit and report have heightened our attention to detail. This attention to detail will provide records which are exact and correct.

If you have any questions, please call me at FTS 473-4780.

Sincerely,

J. Alan Yeazel, Manager
Operations, Maintenance,
Engineering and Construction
West Valley Project Office
