Reference: Beaver Valley Power Station, Unit No. 1
Docket No. 50-334, License No. DPR-66
Proposed Revision to Change Request No. 79 to
Operating License

Gentlemen:

Enclosed are:

1. Three (3) originals and thirty-seven (37) copies of a revision to our Application for an Amendment to Operating License DPR-66 to amend our previous application concerning boron concentration reduction in the Boron Injection Tank.
2. Forty (40) copies of documents designated Attachments A and B which set forth the revised change in Technical Specification and its revised safety evaluation.

We have determined this to be a revision to an existing change request, therefore, no fee is required.

Very truly yours,

J. J. Carey
Vice President, Nuclear

Docket No. 50-334

REVISION TO
APPLICATION FOR AMENDMENT
TO OPERATING LICENSE

Pursuant to Section 50.90 of the regulations of the U. S. Nuclear Regulatory Commission (the "Commission"), Duquesne Light Company ("DLC"), holder of Provisional Operating License No. DPR-66, hereby requests that our Application No. 79 be revised concerning boron concentration reduction in the Boron Injection Tank.

The proposed revision is set forth in Attachment A to this Application. A revised safety evaluation is set forth in Attachment B. The proposed change does not involve a significant change in the types or a significant increase in the amounts of effluents or any change in the authorized power level of the facility. The change involves a single safety issue, revision of Application No. 79 concerning boron concentration reduction in the Boron Injection Tank, and is in accordance with 10 CFR 170.22.

WHEREFORE, Applicant respectfully requests that our Application No. 79 be amended in the form attached hereto as Attachment A.

Duquesne Light Company
