Subject: Catawba Nuclear Station, Units 1 and 2
Docket Nos. 50-413 and 50-414
Violation No. 413/90-19-01
Request For Commitment Date Extension

Catawba Nuclear Station committed to the NRC on September 27, 1990 to revise Department and Station Directives by March 31, 1991. The revisions were to provide better guidance on the areas in which Compensatory Actions can be used and on the methods to be used in conducting 10CFR 50.59 safety evaluations for Compensatory Actions. My letter dated March 26, 1991 extended the completion date to June 1, 1991. Revisions to the Station Directives have been completed, however, the revisions to the Department Directive require additional time. The revision to the Department Directive will be complete by August 1, 1991.

Very truly yours,

Hal B. Tucker
