Catawba Nuclear Station
Docket Numbers 50-413 and -414
Response to Request for Additional
Information Relative to Topical Report DPC-NE-3001

By letter dated February 13, 1991, Duke Power Company submitted responses to NRC Staff questions relative to Duke-proprietary Topical Report DPC-NE-3001. As a result of telephone conversations among the report reviewer, NRC staff, and Duke, revisions to two of the responses (6 and 19) have been prepared and are attached. Also attached are responses to a second set of questions which have been received. Note that the second set of 21 questions has been renumbered (26-46) consecutive to the original 25 questions to avoid confusion. Please find also (Attachment 2) marked-up revision pages to the Topical Report. The report will be reprinted in its entirety upon receipt of the Safety Evaluation Report.

Please note that both the question responses and the revision contain proprietary information and should be withheld from public disclosure. An affidavit supporting this designation was contained in the original submittal of the report, dated January 29, 1990.

If there are any questions, please call Scott Gewehr at (704) 373-7581.

Very truly yours,

M. S. Tuckman
