50-424, 50-425; Main Feedwater Pipe Supports - Unverified
Computer Code, GN-224 Dated April 28, 1983

Attention: Mr. James P. O'Reilly

Gentlemen:

In our previous correspondence on this issue, Georgia Power Company stated that we expected to file a final report to the NRC by August 5, 1983. A recent letter from our architect/engineer has indicated that new computer input data is required in order to complete the analysis of this issue. Georgia Power Company has been advised it will take the A/E approximately 12 to 16 weeks to obtain this data. Based on this information, Georgia Power Company now expects to submit a final report to the NRC by February 3, 1984.

This response contains no proprietary information and may be placed in the NRC Public Document upon receipt.

Yours truly,

D. O. Foster
