

# Federal Emergency Management Agency

Washington, D.C. 20472

JUN 3 1991

Mr. Frank J. Congel, Director  
Division of Radiation Protection  
and Emergency Preparedness  
Office of Nuclear Reactor Regulation  
U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Congel:

Enclosed is a copy of the final exercise report for the October 24, 1990, joint exercise of the offsite radiological emergency response plans site-specific to the Farley Nuclear Power Plant. The State of Alabama partially participated and the State of Georgia fully participated in the exercise. Houston County in Alabama and Early County in Georgia also participated in the exercise. The final exercise report was prepared by the Region IV staff of the Federal Emergency Management Agency (FEMA). A copy of this report will be provided to the States of Alabama and Georgia by the FEMA Region IV staff.

There were no Deficiencies identified during this exercise. There was, however, one Area Requiring Corrective Action identified during this exercise. FEMA Region IV staff will monitor the status of the corrective actions.

Based on the results of the October 24, 1990, exercise, the offsite radiological emergency response plans and preparedness for the Farley Nuclear Power Plant are adequate to provide reasonable assurance that appropriate measures can be taken offsite to protect the health and safety of the public in the event of a radiological emergency at the site. Therefore, the Title 44 CFR, Part 350, approvals of the offsite radiological emergency response plans and preparedness site-specific to the Farley Nuclear Power Plant, granted on March 11, 1981, for the State of Alabama and May 5, 1981, for the State of Georgia, will remain in effect.

If you should have any questions, please contact Mr. Craig S. Wingo, Chief, Radiological Preparedness Division, at (202) 646-3026.

Sincerely,

A handwritten signature in black ink, which appears to read "Craig S. Wingo", is written over the typed name.

Dennis H. Kwiatkowski  
Assistant Associate Director  
Office of Technological Hazards
