Subject: Presentation Material from the June 4, 1991 NRC/SCE&G/Westinghouse Meeting on the V. C. Summer Technical Specification Change Request for VANTAGE+ Fuel [Proprietary]

Dear Mr. Jones:

Enclosed are six (6) copies of the presentation material from our June 4, 1991 meeting [Proprietary] on the V. C. Summer Technical Specification Change Request for VANTAGE+ fuel.

The purpose of this meeting was to provide the NRC Reactor Systems Branch and the NRC Project Management with an overview and discussion of the V. C. Summer licensing amendment for VANTAGE+ fuel. Comparisons were made with the VANTAGE+ generic topical, WCAP-12610, to identify similarities.

This submittal contains Westinghouse proprietary information of trade secrets, commercial or financial information which we consider privileged or confidential pursuant to 10CFR9.5(4). Therefore, it is requested that the Westinghouse proprietary information attached hereto be handled on a confidential basis and be withheld from public disclosure.

This material is for your internal use only and may be used solely for the purpose for which it is submitted. It should not be otherwise used, disclosed, duplicated, or disseminated, in whole or in part, to any other person or organization outside the Office of Nuclear Reactor Regulation without the express prior written approval of Westinghouse.
