Mr. Robert A. Clark, Chief
U. S. Nuclear Regulatory Commission
Office of Nuclear Reactor Regulation
Division of Licensing
Operating Reactors Branch No. 3
Washington, D.C. 20555

Reference: Docket No. 50-285

Dear Mr. Clark:

Control of Heavy Loads

In a letter dated May 17, 1983, the Commission requested that the Omaha Public Power District supply additional information in regard to issues associated with NUREG-0612. Response was requested within 60 days of receipt of the letter in order for the Commission to maintain its review schedule.

Due to the District's present workload, it was not possible to formulate the required response within the allotted 60 days. It is expected that 45 additional days will be needed to allow sufficient time to address all the open items listed in the Commission's letter. The District will provide the Commission with the requested information by September 1, 1983.

Sincerely,

W. C. Jones
