Docket Nos. 50-352 and 50-353

Dear Mr. Romano:

Enclosed is "Applicant's Answers to Intervenor AWPP's (Romano) First Set of Interrogatories on Carburetor Icing Contention." This request has been designated "Discovery 11."

As with previous discovery requests, the documentary material responsive to your request will be made available for your inspection during normal business days from 9:00 a.m. to 4:30 p.m. at a room near Philadelphia Electric Company's headquarters. Please call Edward Cullen at 215/841-4273 to make specific arrangements at least one day in advance in order to gain access to the documents. Any copies that you wish made of this material as the result of your review should be marked and copies will be made at the commercial rate of approximately 7¢ per page.

Pursuant to its request (Tr. 4338), we are sending one copy of all documents made available to you to the Atomic Safety and Licensing Board.

With regard to your July 27, 1983 letter which serves a second set of requests for documents with regard to its proposed Contention VI-1, I would note that the Atomic Safety and Licensing Board denied that Contention in its Second Special Prehearing Conference Order (LBP-83-89) (slip op. at 36-40). Inasmuch as you have requested reconsideration of the Board's ruling by letter dated August 5, 1983,
