W. L. STEWART  
VICE PRESIDENT  
NUCLEAR OPERATIONS

December 30, 1982

Mr. Harold R. Denton, Director  
Office of Nuclear Reactor Regulation  
Attn: Mr. Robert A. Clark, Chief  
Operating Reactors Branch No. 3  
Division of Licensing  
U. S. Nuclear Regulatory Commission  
Washington, D. C. 20555

Serial No. 739  
NO/JHL:acm  
Docket Nos. 50-338  
50-339  
License Nos. NPF-4  
NPF-7

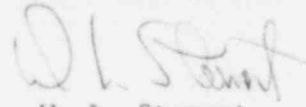

Gentlemen:

FIRE PROTECTION RULE 10 CFR 50.48  
ALTERNATE SAFE SHUTDOWN  
NORTH ANNA POWER STATION UNIT NOS. 1 AND 2

On June 22, 1982, Vepco submitted additional information regarding safe shutdown capability as addressed by Appendix R to 10 CFR 50. In Section E of this submittal, Vepco made commitments concerning the scheduling of various plant modifications and the necessity for additional plant procedures. Vepco intends to follow the guidance of 10 CFR 50.48(c)(4), as indicated in your letter dated November 18, 1982, concerning the schedule to complete the required modifications of Section E of our submittal.

Vepco proposes an extension to March 1, 1983 to complete required plant procedures for alternate safe shutdown capability. This schedule extension is needed due to the fact that our submittal was not approved until November 18, 1982 and there was not sufficient time to write these procedures to meet our commitment date of January 1, 1983.

Very truly yours,

  
W. L. Stewart

cc: Mr. Richard C. DeYoung, Director  
Office of Inspection and Enforcement  
Washington, D. C. 20555

Mr. James P. O'Reilly  
Regional Administrator  
Region II

January 11, 1983
