Mr. John T. Collins
Regional Administrator, Region IV
Nuclear Regulatory Commission
611 Ryan Plaza Drive, Suite 1000
Arlington, Texas 76011

Dear Mr. Collins:

South Texas Project
Units 1 & 2
Docket Nos. STN 50-498, STN 50-499
Supplemental Information Concerning IE Bulletin 83-05

By letter dated May 19, 1983, the NRC requested that Houston Lighting & Power Company (HL&P) perform a review of the spare parts supplied to the South Texas Project (STP) for use in ASME Code pumps and identify all pumps and their service application where Hayward Tyler Pump Company (HTPC) manufactured spare parts are/will be used. Specifically, attached to the NRC letter was a listing of spare parts which were presumed to have been sent to the STP.

HL&P and our architect-engineer have reviewed the subject listing of spare parts. The spare parts referenced in the NRC letter are for non safety-related applications. We have not ordered spare parts from HTPC for use in any ASME Code (i.e. safety-related) pumps.

In accordance with the guidance in the NRC letter, the information contained in the letter is to be handled as proprietary information in accordance with the provisions of 10CFR2.790.

If you should have any questions concerning this matter, please contact Mr. Michael E. Powell at (713) 877-3281.

Very truly yours,

A handwritten signature in dark ink, appearing to read "G. W. Oprea, Jr.".

G. W. Oprea, Jr.
