Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, DC 20555

Subject: LaSalle County Station Unit 2
Specific Requests for Unit 2
Technical Specifications
NRC Docket No. 50-374

Reference (a): C. W. Schroeder letter to H. R.
Denton dated August 23, 1983.

Dear Mr. Denton:

Reference (a) provided our submittal on certain items to be included in the Unit 2 license. On August 31, 1983, Dr. A. Bournia and Mr. Tim Collins of your staff requested verification of two items regarding topic 3, MCPR Operating Limit Without EOC-RPT Unit 2 Technical Specification.

The purpose of this letter is to provide the requested information as follows:

1. The inputs used in the analysis are those utilized in the LaSalle County Station FSAR Chapter 15 transient analyses.
2. The approved version of GDYN was used in this analysis.

To the best of my knowledge and belief the statements contained herein are true and correct. In some respects these statements are not based on my personal knowledge but upon information furnished by other Commonwealth Edison and contractor employees. Such information has been reviewed in accordance with Company practice and I believe it to be reliable.

Enclosed please find one signed original and forty (40) copies of this letter.

If there are any further questions in this matter, please contact this office.

Very truly yours,
