NORTH ANNA POWER STATION UNIT NOS. 1 AND 2
60 DAY RESPONSE TO GENERIC LETTER 83-28

In accordance with the instructions of the Generic Letter 83-28 dated July 8, 1983, we are submitting a 60 day response. Activities are in progress on all areas of the letter. Primary attention is on reactor protection system tasks. Other areas are proceeding concurrently. It is our goal to submit the information required in the 120 day response. There are, however, some reservations on these plans and at least one item will definitely be delayed. This item is Item 2.2.2, "Vendor Interface." Utilities are beginning a joint effort on Item 2.2.2. The results of this work may affect our response and, therefore, a delay beyond the 120 day response date may occur.

Very truly yours,

W. L. Stewart
