DOCKET NUMBER
PROD. & UTIL. FAC. 50-389

UNITED STATES
NUCLEAR REGULATORY COMMISSION
WASHINGTON, D.C. 20555

In the matter of

FLORIDA POWER AND LIGHT CO.

St. Lucie Nuclear Power Plant

(Units 1 and 2)

) Docket Nos. 50-335 and 50-389

) License Nos. DPR-67 and NPF-15

) EA 91-062

) July 22, 1991

PETITION FOR HEARING AND LEAVE TO INTERVENE

COMES NOW, Tom Saporito, Board of Directors, Floridians for Safe Energy and requests on behalf of himself, (a private citizen), pursuant to the Atomic Energy Act of 1954, as amended (ACT), 42 U.S.C. 2282, and the Nuclear Regulatory Commission's (NRC) rules of practice as outlined in Title 10 of the Code of Federal Regulations, a HEARING AND LEAVE TO INTERVENE.

In accordance with the aforementioned authority and law in support of this petition, I would state that:

1. I am a resident of Palm Beach County, Florida.
2. I live within the NRC's (50 mile "Zone of Interest") of the St. Lucie Nuclear Power Plant.
3. I fear that the action by the NRC of imposing a \$37,500 civil penalty as detailed in (EA 91-062) will result in an accident at the St. Lucie Nuclear Power Plant causing a release of radiation from the nuclear plant which will cause personal harm to myself and my family and economic harm resulting from radiation damage to our personal property.

An accident and release of radiation will occur primarily as a direct result of Florida Power and Light Company's (Licensee), failure to:

1. Ensure safety procedures approved by the St. Lucie plant management are accurately understood and accomplished.

2. Properly train the plant's non-licensed operators in accordance with in-house procedures.
3. Ensure that all safety systems at the St. Lucie Nuclear Plant are fully operational as required by their license and plant technical specifications.
4. Ensure that a repeat violation does not occur in the future. A similar event occurred at the St. Lucie Nuclear Plant in June 1989.

For the environment,

Tom Saporito, Board of Directors
