Washington, D.C. 20555

Gentlemen:

Attached, please find a revised Safety Analysis Report to replace the SAR submitted April 19, 1994 in conjunction with our application for License #R-97 renewal. The revised edition, dated January 10, 1995, corrects several typographical errors that were found subsequent to our 4/19/94 submission.

We appreciate U.S. NRC cooperation in this matter.

Sincerely,

R.A. Karam

R.A. Karam, Ph.D., Director
