Mr. Cecil O. Thomas, Branch Chief
Standardization and Special Projects Branch
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Subject: CESSAR-F Standard Technical Specifications

Dear Mr. Thomas:

Combustion Engineering, Inc. (C-E) has revised the proposed Technical Specifications for CESSAR-F. The purpose of the revision is to incorporate the changes to the Technical Specifications which have resulted from changes and improvements that have been incorporated since our initial submittal of CESSAR-F.

The enclosed revision to Chapter 16 of CESSAR-F represents the C-E proposed technical specifications for nuclear steam supply systems referencing CESSAR-F. The proposed changes will be incorporated into CESSAR-F in a future amendment.

If I can be of any further assistance in this matter, please contact either myself or Mr. G. A. Davis of my staff at (203) 285-5207.

Very truly yours,

COMBUSTION ENGINEERING, INC.
