Docket Nos. 50-282 License Nos. DPR-42

Revised Pages for License Amendment Request Dated October 17, 1994
Change Radioactive Effluent Report Submittal from Semiannual to Annual

Attached is a revision to Exhibits B and C for the License Amendment Request dated October 17, 1994. This revision was deemed necessary because an additional page, TS-ix, was identified which requires revision to implement the proposed amendments. Page TS.6.7-3 was further revised to delete "release" from the first line of the first paragraph. Exhibit C pages also have been sidelined where wording changes were made. These changes are editorial in nature and do not change the conclusion of the original significant hazards considerations.

For ease of making page substitutions, Exhibits B and C have been resubmitted in their entirety. Attachment 1 contains the Technical Specification pages marked up to implement the proposed amendments (Exhibit B). Attachment 2 contains the Technical Specification pages revised to implement the proposed amendments (Exhibit C).

Please contact Dale Vincent (612-388-6758 X4107) if you have any questions related to this revision of the October 17, 1994 License Amendment Request.
