DIVISION MANAGERS

As you know, Georgia Power Company's nuclear operations group has been relocated to Birmingham, Alabama. We are in the process of working out the agreements with our joint owners to establish Southern Nuclear Operating Company which, when finalized, will contract with us to operate our nuclear plants.

It is important for us to realize that while our nuclear operations may be managed in Birmingham and ultimately will be managed by a separate Southern subsidiary, Georgia Power will be held accountable by our regulatory groups, our stockholders, and the public for the operation and performance of our nuclear units. It is essential that Georgia Power Company be involved in the operations of our units, monitor their performance and integrate nuclear operations goals, accountabilities, and financial planning into Georgia Power Corporate Plan.

Effective immediately, a Nuclear Operations Contract Administration Group is formed to interface with our nuclear operations group in Birmingham. This group will report to Mr. G. F. Head, Senior Vice President, who will be responsible for all nuclear operations interactions.

Mr. M. B. Hobby, Assistant to the Senior Executive Vice President, currently on loan to Nuclear Operations, is named General Manager Nuclear Operations Contract Administration and will report to Mr. Head.

Your support as we move to restructure our nuclear operations group is appreciated.

Sincerely,

A. W. Dahlberg
