May 3, 1990
MEMO FOR FILE

'95 JAN 30 P2:28

SUBJECT: Discussion with NRC Commissioners and Staff about SONOPCO

OFFICE OF SECRETARY
DOCKET & SERVICE
BRANCH

1. On May 2, 1990, J. M. Farley, W. G. Hairston, III and I met with NRC officials in the White Flint offices as follows:

10:45 AM	Commissioner Roberts
11:15 AM	Commissioner Rogers
2:00 PM	NRC Executive Director of Operations
2:30 PM	Commissioner Curtis
3:00 PM	Chairman Carr

2. We provided a status report on SONOPCO to the above officials using attachment A for illustration. We described the present status as basically Phase One with the nuclear organization co-located in a common building. We described the involvement of J. M. Farley as Executive Vice President of Southern Company and the services of the SCS Technical and Administrative groups.

We described the Phase Two organization that would be put in place following SEC approval of SONOPCO. It was noted that we would be in this configuration for an indefinite period. It was noted that no NRC action was required to move to that phase.

We discussed the necessary NRC licensing changes that would be necessary before proceeding to Phase Three.

3. Each and every NRC official expressed satisfaction and support for our moving into Phase Two and at a time to be later determined into Phase Three. The necessity for amending the operating licenses for entering Phase Three was discussed but no regulatory obstacles were identified.

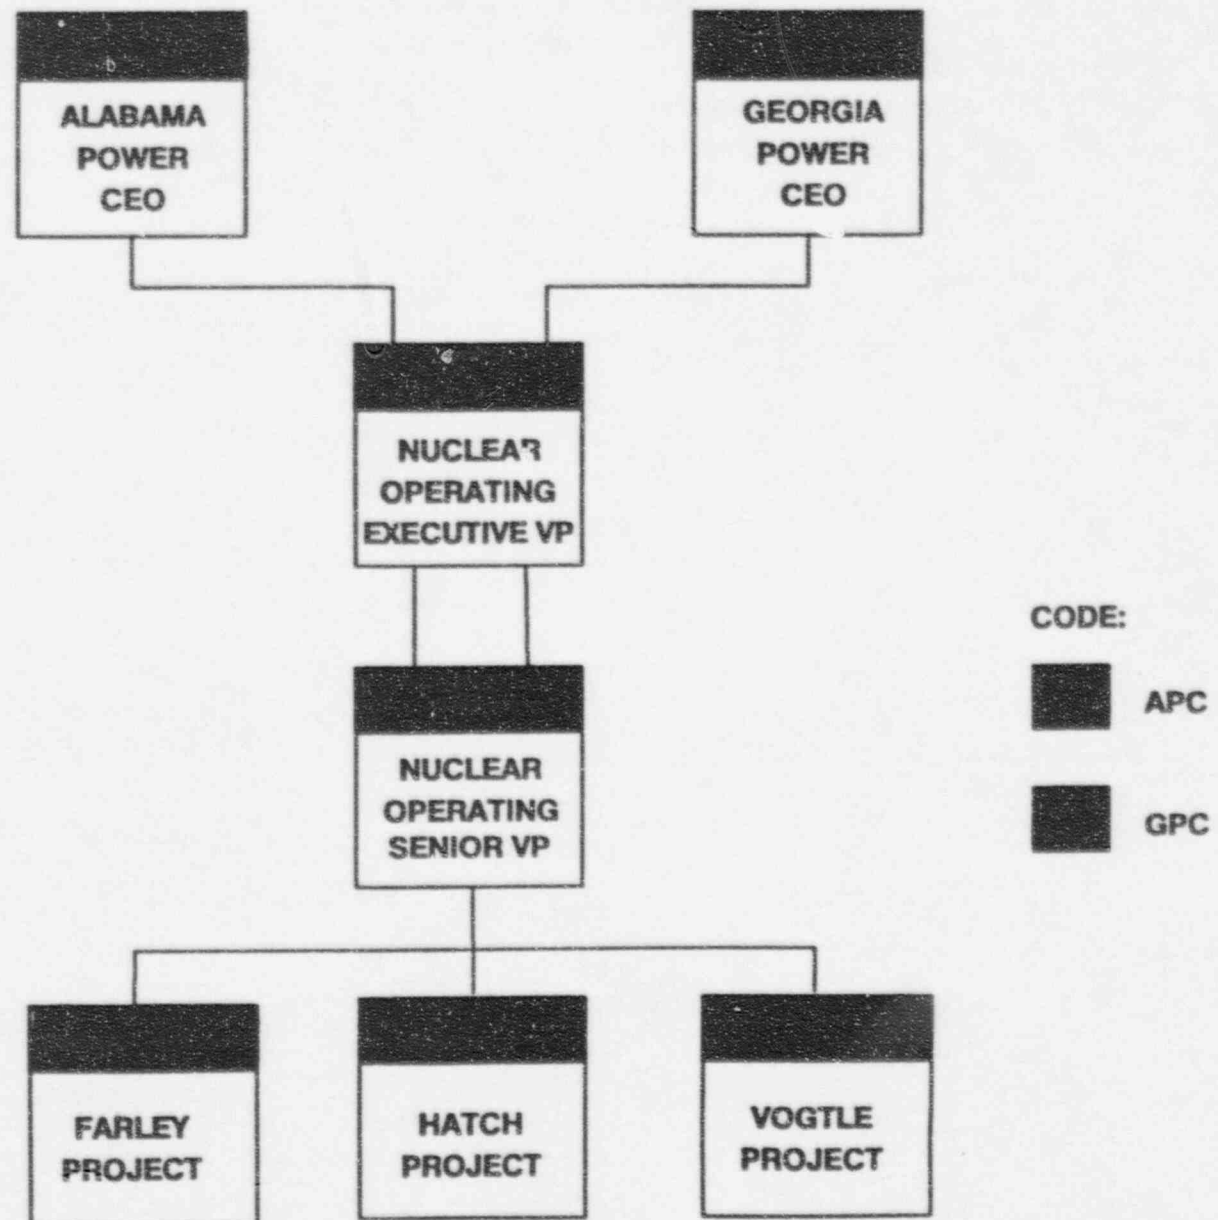

R. B. Donald
