50-424, 50-425; Brown Boveri Reactor Coolant Pump  
Switchgear-GN-247 dated August 2, 1983

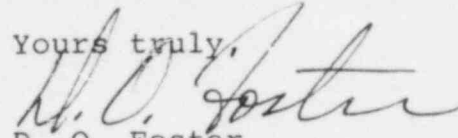

Attention: Mr. James P. O'Reilly

Gentlemen:

In our letter GN-247 dated August 2, 1983, Georgia Power Company forecast a completion date of September 23, 1983 to resolve the above reported concern. At this time, Georgia Power Company is advising the completion date for this report will be rescheduled to October 14, 1983. The date is being rescheduled because the engineering evaluation is taking longer to complete than was originally forecast.

This letter does not contain any proprietary information and may be placed in the NPC Public Document Room upon receipt.

Yours truly,

  
D. O. Foster
