Attention: Document Control Desk

Subject: Preliminary Report, "Technical Support For Alternate Plugging Criteria With Tube Expansion At Tube Support Plate Intersections For Model D4 Steam Generators" (Proprietary)

Attached is one copy of Preliminary Report, "Technical Support For Alternate Plugging Criteria With Tube Expansion At Tube Support Plate Intersections For Model D4 Steam Generators". This report provides information to allow the use of increased voltages in alternate plugging criteria. This report contains information which is proprietary to Westinghouse Electric Corporation. Accordingly, we request that this information be withheld from public disclosure.

We will comply with the requirements of 10 CFR 2.790 to provide proprietary and non-proprietary versions of the above material together with an affidavit as soon as the proprietary and non-proprietary versions have been prepared. We will submit the total required number of copies of the proprietary and non-proprietary versions of the information and the required affidavit at that time.

In the meantime, we have provided sufficient copies for your information and use. M. P. Siemien, Esq. of the NRC Office of the General Counsel, has advised Westinghouse that she concurs with this procedure.

We expect to be able to fully comply with the requirements for the proprietary and non-proprietary versions of the information in the form of WCAPs and an accompanying affidavit within four weeks.

Very truly yours,

Nicholas J. Liparulo, Manager
Nuclear Safety Regulatory and Licensing Activities
