Mr. Darrell G. Eisenhut, Director
Division of Licensing
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Mr. Eisenhut:

South Texas Project
Units 1 & 2
Docket Nos. STN 50-498, STN 50-499
Revised Response to NRC Generic Letter 83-01,
"Operator Licensing Examination Site Visit"

Generic Letter 83-01, dated January 11, 1983, requested that Houston Lighting & Power Company (HL&P) identify all requests planned for submittal to the NRC through December 31, 1985 for site visits to conduct operator licensing examinations or instructor certification examinations as listed in the Generic Letter. HL&P responded by letter dated February 28, 1983, that submittal of applications for instructor certification examinations for ten persons was tentatively planned for the third quarter of 1983 for the examinations to be conducted in the second quarter of 1984. However, the schedule has been revised. The current plan is to submit applications in February 1984 for ten persons to be examined in September 1984 for Instructor Certification.

Very truly yours,
