Subject: Response to RIS 2019-03 "Pre-Application Communication And Scheduling For Accident Tolerant Fuel Submittals"

The NRC issued a final Regulatory Information Summary (RIS) 2019-03 (Reference 1) that identified questions on the scheduling of Accident Tolerant Fuel (ATF) activities. The staff encouraged vendors to provide voluntary responses to the questions. Enclosure 1 to this letter provides the GNF voluntary responses to the questions.

GNF considers some of the material contained in Enclosure 1 to be proprietary. As required by 10 CFR 2.390(b), an affidavit is enclosed to support withholding of information from public disclosure.
