Dear Mr. Estridge,

York County has the willingness and capability to provide water service to the subject project. A flow test was performed by the Water and Sewer Division on January 19, 1995 as required by the Department of Health and Environmental Control and the information was as follows: 1,3000 gallons per minute, a residual of 90 psi and a static of 85.

All cost for this additional service must be paid by the requestor.

Please let me know if you have any questions.

Sincerely,

Timothy R. Kiser, P.E.
Interim County Engineer
