Re: NRC Letter to D. L. Rehn, Vice President, Catawba Nuclear Station
dated April 20, 1994

The referenced letter requested Duke Power Company to submit a non-proprietary version of the subject calculation. Duke Power Company has reviewed the recent developments in IPC requirements and has concluded that the marketability of the subject calculation has decreased. We have received written confirmation from both ERPI and Combustion Engineering that the specific utilization of their materials used in the subject calculation, can be released to the public domain.

Therefore, in response to your request, the subject calculation can be considered non-proprietary.

Very truly yours,

A handwritten signature in cursive script, appearing to read 'D. L. Rehn'.

D. L. Rehn
