Joseph M. Farley Nuclear Plant (FNP)
FNP Safeguards Security Contingency Plan
Revisions 5 And 6

Gentlemen:

In accordance with 10 CFR 50.54(p), Southern Nuclear Operating Company submits Revisions 5 and 6 to the Farley Safeguards Security Contingency Plan. The signed original and three copies are being sent to the Document Control Desk, and two copies are being sent to the appropriate Regional Office in accordance with 10 CFR 50.4(b)(4).

The NRC letter dated April 5, 1994, from Mr. Douglas M. Collins to Mr. D. N. Morey requested clarification to Farley Security Plan Revisions 25 and 26, and Contingency Plan Revision 4. Revision 27 to the Security Plan provided additional details to respond to this request and clarified Revisions 25 and 26, and was sent to the NRC on May 5, 1994.

Clarification to the Contingency Plan is provided in Revision 5, which also incorporates additional information not related to the NRC request for clarification. Revision 6 to the Contingency Plan makes additional changes that are consistent with the changes in Revision 5, but were inadvertently omitted from Revision 5.

Please note that the information contained in Attachments 3 and 5 is safeguards information (SGI), and should be withheld from public disclosure in accordance with 10 CFR 73.21.

If there are any questions, please advise.

Respectfully submitted,
