Docket 52-002

Attn: Document Control Desk
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555-0001

Subject: System 80+™ Design Control Document Revisions

Dear Sirs:

This letter transmits mark-up pages identifying revisions incorporated into the System 80+ Design Control Document. These revisions are provided in response to comments provided by the NRC letter dated January 27, 1995, and as a result of changes identified by ABB-CE and discussed with the NRC. Margin bars and a revision date have been added to each page containing other than minor typographical or editorial changes.

Please call me or Mr. Stan Ritterbusch at 203-285-5206 if you have any questions.

Very truly yours,

COMBUSTION ENGINEERING, INC.
