Revised Response to Notice of Violation

By letter dated February 11, 1994, the NRC issued a Notice of Violation as described in the subject Inspection Report. Our response was submitted in a letter dated May 12, 1994.

In our response to violation 'A', we committed to providing a schedule for the completion of the analysis of the two phase conditions downstream of the RBCUs for Oconee. This schedule was provided in a letter dated November 2, 1994 and indicated a completion date of 1/3/95 for Oconee Units 1 and 2. Preliminary results from the analysis have been obtained and are being verified. However, this process will not be completed by 1/3/95. Therefore, the completion date needs to be extended to 2/13/95. This is the first extension of the commitment date.
