Re: Freedom of Information Act Request
File Report 99901081/87-01
Vendor Inspection, February 17-20, 1987 regarding
Inland Steel Co.

Dear Ms. Reed:

Pursuant to the Freedom of Information Act and our phone conversation today, we hereby request copies of all notes, letters, drawings, procedures and other documents contained in your files regarding the subject report.

We are the attorneys representing Rockwell Engineering Company, a small local fabricator, in a suit directed at recovering \$300,000 in damages caused by Inland Steel supplying defective beams for the Emergency Core Cooling Spray Array at the North Anna Power Station of Virginia Electrical Power.

We understand that copies are 20¢ each and that to have a staff person put the file together will cost approximately \$26.00 per hour. These amounts are acceptable to us with the understanding that we do not wish the total to exceed \$500.00.

I will be happy to discuss this matter with any of your staff if there are any questions.

In the meantime, I wish to thank you for the courtesy extended to me when I called today.

Very truly yours,

John B. Ehret
