William J. Cahill, Jr.
Executive Vice President

U. S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, D.C. 20555

SUBJECT: COMANCHE PEAK STEAM ELECTRIC STATION (CPSES)
DOCKET NOS. 50-445 AND 50-446
TRANSMITTAL OF THE CPSES SECURITY TRAINING AND
QUALIFICATIONS PLAN, REVISION 7

REF: TU Electric letter logged TXX-91155 from William J. Cahill, Jr.
to Director of Material Safety and Safeguards, USNRC dated
April 15, 1991

Gentlemen:

Enclosed are four copies of the CPSES Security Training and Qualifications Plan, Revision 7 (Copy Nos: 13, 14, 15, and 16). The changes, indicated in the referenced letter, alter the shotgun qualification course and the requalification cycle. The Summary of Changes, included with each copy, provide more detail respective to each change. These changes have been reviewed under the provisions of 10CFR50.54(p) and found to meet the provisions of 10CFR50.54(p)(2) and, therefore, would not decrease the effectiveness of the Security program. Also, as these changes prescribe alternatives to the program outlined in 10CFR73.55 and 10CFR73, Appendix B, TU Electric requests expeditious review and approval in accordance with 10CFR73.55(a).

If there are any questions, contact Mr. Greg Bell at (214)812-4373.

Sincerely,

William J. Cahill, Jr.
