U.S. Nuclear Regulatory Commission
Attn: Document Control Desk
Washington, DC 20555

Subject: Peach Bottom Atomic Power Station, Units 2 and 3
Withdrawal of Request for Relief From Implied 30
Implementation of ASME Section XI Repairs (Relief
Request No. RR-19)

Dear Sir:

In our letter dated June 3, 1994, PECO Energy Company supplied for your review and approval Relief Request No. RR-19 for the Peach Bottom Atomic Power Station (PBAPS), Units 2 and 3, Second Ten-Year Interval Inservice Inspection (ISI) Program. In that letter, PECO Energy Company requested relief from the implied implementation schedule for repairs to Class 3 pressure retaining components in the Emergency Service Water System. Additional information regarding this relief request was also supplied in our letter dated July 6, 1994.

Repairs have since been completed to the Emergency Service Water System. Therefore, the need for the relief request no longer exists and we are withdrawing this request for relief.

If you have any questions or require additional information, please do not hesitate to contact us.

Very truly yours,

G. A. Hunger, Jr.
Director - Licensing
