The Honorable Kenneth M. Carr
Chairman
Nuclear Regulatory Commission
1717 H Street, NW
Washington, DC 20555

Dear Mr. Chairman:

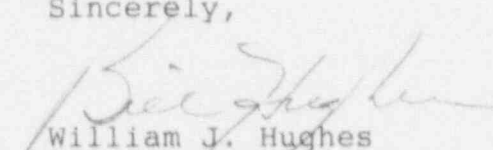

I am writing on behalf of my constituent, Mr. Roger Lantieri of Cape May, New Jersey.

Mr. Lantieri has heard news reports regarding the conditions at a nuclear energy plant at Oyster Creek, New Jersey as well as plants in Virginia, Pennsylvania, and North Carolina. The news report apparently stated that an accident like what happened at Chernobyl could happen at these plants. Mr. Lantieri is concerned about these reports and would like to know if the danger does exist and whether remedies are being sought.

I would greatly appreciate it if you would provide this information to me. I have enclosed a copy of Mr. Lantieri's letter for your information.

Thanking you in advance, I remain,

Sincerely,

William J. Hughes
Member of Congress

Congressman Hughes - The morning

on the Good Morning America T.V.

I heard that at Oyster Creek, N.J.

the Nuclear Energy Plant is in

danger like what happened in

Russia, "Chernobyl Tragedy". As

well as in N.J. there were also

plants in Va, Pa, N.C. and

some others I did not get.

I would like to know if this

is all factual and if the

proper remedies are now being

taken to prevent a Nuclear

Tragedy - Sincerely,

Roger Santore
