(Shoreham Nuclear Power Station,)
Unit 1))

Status Report on ADS Modification

In a Memorandum and Order dated October 3, 1983, the Board granted LILCO's request to defer further consideration of modifications to the Shoreham ADS Logic pending receipt of a LILCO status report on the subject on January 16, 1984. LILCO had previously advised the Board that the engineering work associated with this modification had been started and that engineering and material procurement was projected to be completed in late February 1984. LILCO also stated that implementation would commence when engineering and procurement were completed if time permitted prior to fuel load. LILCO estimated that the installation would take 6 to 8 weeks to complete. See "LILCO Report Regarding Modification of ADS Logic," dated September 30, 1983.

D503

At present, engineering and procurement for the ADS modification are proceeding on schedule, and completion of these tasks is anticipated in February 1984. In light of the diesel related fuel load delay and the status of diesel hearings, LILCO expects to proceed with and complete implementation of this modification prior to fuel load. If any future developments affect LILCO's ability to complete this modification prior to fuel load, LILCO will promptly notify the Board.

Respectfully submitted,

LONG ISLAND LIGHTING COMPANY

W. Taylor Reveley, III
T. S. Ellis, III
Anthony F. Earley, Jr.
