Re: Duke Power Company, et al. (Catawba Nuclear Station,
Units 1 and 2), Docket Nos. 50-413 and 50-414

Gentlemen:

On January 6, 1984, we provided you with a list of the documents which had been compiled for your review pursuant to our October, 1983 informal conference on discovery.

We have added the following documents to the compilation of documents available for your inspection, review and/or copying:

- (1) Letter of April 22, 1983, from Dr. Susanna V. Duckworth of Winthrop College to Mr. Phillip Carter of Duke Power Company with attached memoranda and correspondence;
- (2) Memo from R. M. Glover to R. V. Shearin of January 4, 1984, regarding backup power for EBS stations; and
- (3) Thirteen-month Outage History for Circuits Serving Emergency Broadcast Stations in the Catawba Plant Area.

These additional documents were made available to Mr. Michael Lowe of Palmetto Alliance and Mr. Phillip Rutledge of CESG, when they were in our General Office today to review other requested documents.

Very truly yours,

Ronald V. Shearin
Ronald V. Shearin
