OFFICE OF SECRETARY
DOCKETING & SERVICE
BRANCH

January 17, 1984

Dear Ben:

Thank you for responding to my request for the input deck in magnetic tape for the Limerick DES. I am having sent under separate cover a blank magnetic tape so that your technical computer experts can input on it, for the City's use, all data assumptions used by the NRC Staff in their CRAC analysis for Limerick. If this turns out not to be feasible, another alternative is a punched card deck with the input assumptions.

Please return the input data to Gregory Minor, MHB Technical Associates, 1723 Hamilton Avenue, San Jose, CA. 95125. I would appreciate it if you would use some form of express delivery as over land deliver takes a week.

Again I thank you for your cooperation in this matter.

Sincerely,

Martha
