Proposed Technical Specification Change
Reporting Safety & Relief Valve Challenges

Gentlemen:

As indicated by our previous letter to you dated December 28, 1982 (ØCAN128212), attached are proposed Technical Specification changes for Units 1 and 2. These changes will require annual reporting of safety and relief valve challenges in accordance with your letter of September 20, 1982 (ØCNAØ98214), generic letter 82-16.

Pursuant to the requirements of 10 CFR 170.22, we have determined this request to include one class III amendment and one class I amendment as both result from a single safety issue and one is a duplicate of the other. Accordingly, a check for \$4,400.00 is attached.

Very truly yours,

John M. Griffin
