Generic Letter 82-28; ICC Instrumentation (NUREG-0737,
Item II.F.2)

Gentlemen:

This is in response to your letter of December 16, 1983 which requested that we respond within 45 days of its receipt providing additional information on our proposed Inadequate Core Cooling (ICC) Instrumentation for Beaver Valley, Unit 1. This letter is to advise you that a meeting has been scheduled between members of my staff and the NRC Staff to discuss the technical issues related to ICC Instrumentation. This meeting is presently scheduled for March 1, 1984 at 10:30 in the Phillips Building. We will be prepared at that time to present some of the requested information and determine an acceptable schedule for resolution of any remaining items.

If you have any questions, please contact myself or members of my staff.

Very truly yours,

J. J. Carey
Vice President, Nuclear
