WRITERS DIRECT DIAL NUMBER

(202) 822-1051

Sheldon J. Wolfe
Administrative Judge
Chairman, Atomic Safety and
Licensing Board
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

DOCKET NUMBER 50-289-OLA
PROD & UTIL FAC.

In the Matter of
Metropolitan Edison Co., et al.
(Three Mile Island Nuclear Station, Unit No. 1)
Docket No. 50-200 OLA
(Steam Generator Repair)

Dear Judge Wolfe,

We received a call from your office today informing us that Reference Documents 27, 34, 42, 47, 48, 49 and the proprietary version of Topical Report 008, Rev. 3 had not been included with the documents submitted for in camera review on February 6, 1984. We apologize for any inconvenience caused by this oversight and enclose the aforementioned documents herein.

In addition, Reference Document 18 (GPUN TDR-007) and Topical Report 008, Rev. 3 were previously submitted to the N.R.C. with attached letters requesting that portions of those documents be considered proprietary. These requests were subsequently approved by the N.R.C. For the Board's information, we are including copies of Licensee's request letters and of the

D503

Sheldon J. Wolfe
February 8, 1984
Page Two

N.R.C.'s corresponding result letters approving those requests. Copies of these documents will also be delivered to all parties on the service list.

Finally, please note that Reference Document 34 was mistakenly included in the "List of Proprietary Reference Documents" attached as Appendix I to the Protective Order submitted by Licensee on February 6, 1984. This document was previously reclassified as non-proprietary. Therefore, this document was not submitted along with the proprietary documents; and we now request the Board to delete document 34 from the List of Proprietary Documents.

Respectfully submitted,

Bruce W. Churchill
Counsel for Licensee

Office of Nuclear Reactor Regulation
Attn: J. F. Stolz, Chief
Operating Reactors Branch No. 4
Division of Licensing
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-50
Docket No. 50-289
Topical Report 008, Rev. 3

Enclosed is GPUN's Topical Report 008, Rev. 3, "Assessment of TMI-1 Plant Safety for Return to Service After Steam Generator Repair".

As with Revision 2 submitted earlier, portions of this document are considered proprietary to GPUN's consultants. Under the provisions of 10 CFR 2.790, we request that you continue to protect the proprietary sections from public disclosure in accordance with the affidavit signed by J. H. Taylor, Manager, B&W Licensing which was submitted with Topical Report 008, Rev. 3. Pages, paragraphs and figures containing such information have been marked "proprietary" in the text of the document. Cross-references showing the relocation of proprietary material in Revision 3 from that shown in Exhibit B of the Reviser's affidavit is attached. A nonproprietary version of Topical Report 008, Rev. 3 has also been enclosed for your use in public distribution.

Sincerely,

H. D. Hukill for
H. D. Hukill

NUCLEAR REGULATORY COMMISSION
WASHINGTON, D. C. 20555

October 11, 1983

Docket No. 50-289

NOV 2 1983

Mr. Henry D. Hukill
Vice President
GPU Nuclear Corporation
P. O. Box 480
Middletown, Pennsylvania 17057

Dear Mr. Hukill:

SUBJECT: APPLICATION FOR WITHHOLDING INFORMATION FROM PUBLIC DISCLOSURE

By letter dated September 14, 1983, you submitted the "Assessment of TMI-1 Plant Safety for Return to Service After Steam Generator Repair", Topical Report 008, Revision 3. You have requested that the information in certain sections and figures of the report be withheld from public disclosure pursuant to 10 CFR Section 2.790. The withholding request is supported by affidavit signed by Mr. James H. Taylor of B&W dated March 7, 1983. Your requests to withhold earlier revisions of this report from public inspection were previously granted by NRC letter dated August 9, 1983.

B&W maintains that the document contains information of the type customarily held in confidence by them and that such information is not available in open literature and is not known by potential competitors of B&W. B&W believes that disclosure of this information would reduce the expenditure of their competitors and, thus, would harm their competitive position.

We have reviewed the application and related material based on the requirements and criteria of 10 CFR 2.790 and have determined that this report contains proprietary commercial information.

We have also found at this time that the right of the public to be fully apprised as to the bases for and effects of the proposed action does not outweigh the demonstrated concern for protection of B&W's competitive position. Accordingly, we have determined that the applicable information should be withheld from public disclosure.

We, therefore, approve the request for withholding pursuant to Section 2.790 of 10 CFR Part 2 and are withholding from public inspection the above mentioned document.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the document. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, assure that the consultants have signed the appropriate agreements for handling proprietary data.

831631476

Mr. Henry D. Hukill

- 2 -

If the basis for withholding this information from public inspection should change in the future such that the information could then be made available for public inspection, you or B&W should promptly notify the NRC.

Sincerely,

A handwritten signature in cursive script, appearing to read "John F. Stolz".

Dear Sir:

Three Mile Island Nuclear Station, Unit 1 (TMI-1)
Operating License No. DPR-30
Docket No. 50-189
TMI-1 Steam Generator Repair Report
(GPRN-IDR-007 Rev. 1/BAW 1760 Rev 1)

Enclosed for use in your review of the TIT-1 Steam Generator Repair is Revision 1 of the "Once through Steam Generator Repair Kinetic Expansion Technical Report." Revision 0 of this report dated November 1982 was sent to you by letter dated January 20, 1983 (5111-83-020).

Some of the information in this submittal is considered proprietary to B&W and their subcontractor Foster Wheeler Energy Applications, Inc., as sworn by J. H. Tayler, Manager, B&W Licensing, in his affidavit presented with Revision 0. Pages, paragraphs, tables and figures containing such information have been marked "proprietary" in the text of the document. Cross-references showing the relocation of proprietary material in Revision 1 from that shown in Exhibit B of the Affidavit for Revision 0 is attached. It is requested that this information be protected from public disclosure under the provisions of 10 CFR 2.290.

By letter dated January 20, 1983, you submitted the "TMI-1 Once-Through Steam Generator Repair Kinetic Expansion Technical Report". You have requested that information in certain sections and figures of the report be withheld from public disclosure pursuant to 10 CFR Section 2.790. The withholding request is supported by affidavit signed by Mr. James H. Taylor of B&W dated January 13, 1983. Subsequently, you submitted a revision to this report by letter dated April 20, 1983, supported by the same affidavit.

B&W maintains that the document contains information of the type customarily held in confidence by them and that such information is not available in open literature and is not known by potential competitors of B&W. B&W believes that disclosure of this information would reduce the expenditure of their competitors and, thus, would harm the competitive position of B&W and its subcontractor, Foster Wheeler.

We have reviewed the application and related material based on the requirements and criteria of 10 CFR 2.790 and have determined that this report contains proprietary commercial information.

We have also found at this time that the right of the public to be fully apprised as to the bases for and effects of the proposed action does not outweigh the demonstrated concern for protection of B&W's competitive position. Accordingly, we have determined that the applicable information should be withheld from public disclosure.

We, therefore, approve the request for withholding pursuant to Section 2.790 of 10 CFR Part 2 and are withholding from public inspection the above mentioned document.

Withholding from public inspection shall not affect the right, if any, of persons properly and directly concerned to inspect the document. If the need arises, we may send copies of this information to our consultants working in this area. We will, of course, assure that the consultants have signed the appropriate agreements for handling proprietary data.
