- c. Records associated with the closure of deficiencies, concerns or other types of problems identified in the DET inspection report.

The above requested records should include those available at NRC Headquarters, Region IV, and in the NRC offices at the STP site. To the degree that any or all of the above-requested records are already publicly available and readily retrievable in the Washington, D.C. area, please provide a list of such records with the appropriate references to facilitate acquisition.

If any or all of this request is denied, please cite the specific exemption(s) that supposedly justify the refusal to publicly release the records, and inform me of any appeal procedures available under the law. Finally, please advise me of the costs involved in obtaining these records if such costs are estimated to exceed \$500.00.

Sincerely,
